MAYOR'S ADDRESS.

GENTLEMEN OF THE CITY COUNCIL :

Having been called by the suffrages of our fellow citizens to take charge of the municipal affairs of our city for the ensuing municipal year, we are now about to assume our several responsibilities.

That we should be familiar or acquainted with the details of the several Departments that will claim our attention, it is not to be presumed. I shall therefore endeavor to acquaint myself with them as early as practicable and will communicate to you, from time to time, whatever I think demands your special attention.

The finances will claim your earliest attention. The Treasury has been very much embarrassed heretofore, in consequence of the large amount of uncollected taxes assessed previous to 1860, which has compelled our predecessors to resort to temporary loans to meet the current expenses of the city. I am informed that the new plan adopted the past year for the collection of taxes, bids fair to work a reform in that department.

I am informed by my predecessor, (also by the Treasurer,) that it has been customary heretofore for persons in the employ of the city to contract bills in behalf of the city without the knowledge of the Mayor or Treasurer, thereby increasing the amount of the monthly draft beyond their expectation, thus at times leading to serious embarrassment.

As no money can be drawn out of the Treasury, except upon the written order of the Mayor, and as no ordinary claim can be received or acted on by the committee on accounts, unless such claim shall be accompanied with the certificate of the Mayor or some other authorized agent, I would therefore suggest that any person making purchases in behalf of the city, be required first to obtain an order for the same at the Mayor's office, and return a bill of the same immediately to the office, to be put on file, thus obviating the inconvenience of having outstanding claims without the knowledge of the Finance Committee.

The Fire Department, with the modern improvements for extinguishing fires, is in good condition, and I believe fully meets the wants of the city.

Our schools, so far as I am informed, are in a flourishing condition.

The repairs of streets and highways will demand your attention. I would recommend that the system of improving Elm street, by paving a portion of it yearly, be carried forward the ensuing year to the extent of our financial ability. New high-

ways will probably be asked for. Before granting such requests, we should fully satisfy ourselves whether the public good or private interests demand it. I would recommend that the fertilizing materials collected in cleaning the streets be carried to the city farm, thus enriching and increasing the productiveness of the farm.

The Police Department will claim your careful and earnest attention. The quiet of the city, the safety of the lives and property of our citizens, and the honor of the city abroad, depend very much upon the efficiency of the Police Department. The increased expenses of this department have caused complaints to be made which I think are not without foundation. I would, therefore, in this and every other department, recommend a rigid system of economy. While we should not be niggardly, or too parsimonious, we should be as watchful for the interests of the city as a prudent individual is in his private affairs. The annual City Report will be laid before you in a few days, which, I trust, will give a correct statement of the financial condition of the city.

Now entering upon our official duties, let us look to the Source of all wisdom to guide us in the faithful discharge of the same.

DAVID A. BUNTON, MAYOR.

CITY OF MANCHESTER.

IN BOARD OF COMMON COUNCIL.

AN ORDER authorizing the Printing of the Fifteenth Annual Report of the Receipts and Expenditures of the City of Manchester.

ORDERED, if the Board of Aldermen concur, That the Joint Standing Committee on Finance be, and they are hereby authorized to cause two thousand copies of the Fifteenth Annual Report of the Receipts and Expenditures of the City of Manchester, including the Report of the Chief Engineer of the Fire Department, of the Overseers of the Poor, the Committee on City Farm, the Trustees, Librarian and Treasurer of the City Library, to be printed for the use of the inhabitants of said City, and that the expense thereof be charged to the appropriations for Printing and Stationery, including the Reports of the School Committee and Superintendent of Public Instruction.

IN BOARD OF COMMON COUNCIL, JAN. 8, 1861.

Passed, JOHN H. GOODALE, PRESIDENT.

IN BOARD OF MAYOR AND ALDERMEN, JAN. 8, 1861.

Passed, D. A. BUNTON, MAYOR.

A true copy, attest,

JOSEPH KNOWLTON, CITY CLERK.

SEVENTH ANNUAL REPORT
OF THE
TRUSTEES OF THE CITY LIBRARY.

In accordance with legal requirement, the Board of Trustees of the City Library ask leave to present their Seventh Annual Report, accompanied by that of the Librarian and Treasurer.

The usual degree of quiet and prosperity has attended this institution in the conduct of all matters pertaining to its interests, leaving little to be said that is new in regard to it. We have only to repeat our congratulations at the unmistakable signs of regard which the people generally evince in this behalf, and to reiterate our belief that time only strengthens the hold which the Library has on the popular mind. A very large number of the books are in constant circulation, while the methods adopted for their care are such as to prevent any undue injury or loss. Indeed, we have reason to believe that losses by wear or by failure to return are much less than those of any similar Library of which we have knowledge.

The system of guarantee has in a few instances given rise to complaint, chiefly through misapprehension, and has been found on the whole to work exceedingly well.

We wish especially to call the attention of young men, and all lovers of valuable books, to the fact, that by far the largest portion of the Library consists of standard

works of the highest repute, and of indisputable worth. We hope such books will be more extensively read. Feeling bound in some measure to supply the popular demand for light reading, we have not yet felt at liberty to appropriate large sums to that purpose, and are of the opinion that expenditure in this direction should be diminished rather than increased. There are books enough worthy the attention of all, and while providing for a diversity of taste such as must always exist in a city like ours, we hope that the young, who are acquiring habits of reading, will strive to direct their attention into channels which may be productive of benefit in the end.

We commend the Library to the fostering care of the City Government, which has so wisely and so favorably regarded its interests heretofore.

Our thanks are due to gentlemen who have made valuable donations of books, as specified in the Librarian's Report.

E. W. HARRINGTON, MAYOR,

PRESIDENT OF THE BOARD OF TRUSTEES.

WM. C. CLARKE, CLERK.

Dec. 31, 1860. In Board of Mayor and Aldermen,

Read and approved.

JOSEPH KNOWLTON, CITY CLERK.

LIBRARIAN'S REPORT.

Gentlemen of the Board of Trustees :

The Librarian asks leave to present his Seventh Annual Report.

The number of persons who up to this date have complied with the regulations for taking books is two thousand six hundred and eighty.

The number of books given out, in two hundred and eighty days, is thirty thousand, and of this number, fifteen appear to be missing, and not accounted for.

The number of books in the Library is seven thousand six hundred and thirty, an increase over the number last annually reported of eight hundred and forty-five.

I have received for fines and for the sale of catalogues, thirty-two dollars and seventy-seven cents, of which amount there has been paid to S. N. Bell, Treasurer, seventeen dollars, for wood one dollar and eighty-seven cents, for one blank book one dollar twenty-five cents—leaving twelve dollars and sixty-five cents in my hands.

Donations of books have been received from the following persons :

HON. DANIEL CLARK, U. S. S.	HON. E. W. HARRINGTON.
“ MOODY CURRIER,	JAMES O. ADAMS, ESQ.
Dec. 31, 1860.	F. B. EATON, LIBRARIAN.

Dec. 31, 1860. In Board of Mayor and Aldermen,
Read and accepted.

JOSEPH KNOWLTON, CITY CLERK.

REPORT OF COMMITTEE ON CITY FARM AND HOUSE OF CORRECTION.

To the City Council, Gentlemen:

The undersigned Committee having had charge of the City Farm and House of Correction for the past municipal year, beg leave to state that they have made a careful inventory of all the personal property at the above named places, as will be seen by the preceding schedule accompanying this report, amounting to \$4,762.50. We will here state that an invitation was extended to his Honor Mayor Bunton to assist in taking the above named inventory. He being present was consulted in regard to the rates of appraisal.

It will be seen by the city reports that there has been paid out for the support of the City Farm and House of Correction \$1,690.28. Paid for the support of paupers off the Farm \$908.07. There has been sold from the Farm the past year \$470.64—and your committee will

also state that there has been considerable improvement made on the Farm the past year, by the way of building walls, ditching, &c. But at the same time we cannot refrain from recommending that more attention should be paid to enriching the soil. That facility readily suggests itself to us, that is by carrying all the street scrapings to the Farm, and by so doing you would not only be improving the soil, but would get a much larger amount of produce in return.

In conclusion, your committee take pleasure in stating that the present Superintendent (Mr. Peavey) has been kind to the poor, and they have at all times expressed themselves satisfied with their treatment the past year. We are also satisfied that a humane course has been pursued with those unfortunate persons that have been sent to the House of Correction for reformation.

All of which is respectfully submitted,

E. W. HARRINGTON,	}	COMMITTEE.

REPORT OF THE BOARD OF ENGINEERS.

To His Honor the Mayor and Aldermen of the City of Manchester :

Gentlemen : In compliance with the requirements of the Revised Ordinances, we herewith submit to your honorable Board a report of the condition of the Fire Department ; also an appraisal of the property belonging to the same, with the location of the several Engines and apparatus, Reservoirs and other supplies of water within the city.

At the commencement of the year the Department consisted of five Hand Engines with forty-five men each, one Hand Engine with fifty men, one Steam Fire Engine with fourteen men, one Hose Company with twenty men, and one Hook and Ladder Company with forty men, consisting in all of three hundred forty-nine men.

Last April three Hand Engines, Nos. 1, 2 and 3, the two latter owned by the Amoskeag and Stark Manufacturing Co.'s, were discharged from service, and the Steamer Fire King put into the House occupied by No. 1. In July the A. C. Wallace No. 7 was discharged from service, and the Steamer E. W. Harrington put in its place. The first of October Massabesic No. 4 was discharged from service.

In November, the Engineers, by an order from the City Government, located Merrimack Engine No. 1 at Amoskeag, in the " Old School House," which had been fitted up for its reception.

The last of December an order passed the Board of Mayor and Aldermen, cutting down the number of men

belonging to the Hook and Ladder Co., from forty to twenty-five men.

The Department now consists of two Hand Engines, Merimack No. 1, and Torrent No. 5, with forty-five men each, two Steamers, Amoskeag No. 1, and Fire King No. 2, with fourteen men each, one Steamer, E. W. Harrington No. 3, with twelve men, one Hose Co., with twenty men, and one Hook and Ladder Co., with twenty-five men, consisting in all of one hundred eighty-five men, being one hundred sixty-four less than at the commencement of the year.

The Hand Engines have fully sustained their reputation for promptness and efficiency. And much credit is due them for the good will manifested and assistance rendered in making the changes in the Department the past year. The Steam Fire Engines have more than met the expectations of the Engineers, by being able to compete successfully with the Hand Engines in getting to fires, they having taken five out of thirteen premiums paid this year for getting the first water on the fire.

Massabesic No. 4 has been sold to the town of Groton, Mass., for four hundred and fifty dollars. A. C. Wallace No. 7 remains in the House formerly occupied by No. 4.

Alterations to a considerable extent were necessarily made in the Houses formerly occupied by Hand Engines Nos. 1 and 7, for the accommodation of the Steamers Fire King and E. W. Harrington. One thousand feet of "Boyd's Patent Hose" has been purchased and put into use during the last year.

During the past year a nine inch cement pipe has been put in, leading from the Pond on Concord Square to the Reservoirs in front of "Smyth's Block," and a gate connected with the same pipe at the junction of Concord and Elm Streets which can be used as a Reservoir, furnishing water enough for any emergency.

The Board would recommend that the Reservoir on Manchester Street, near J. A. Perry's, be supplied from the Pond on Concord Square as early as possible ; also that a Reservoir be put in at the junction of Myrtle and Elm Streets.

The highest credit is due to the members of the Fire Department for the prompt and efficient manner in which they have discharged their several duties during the past year.

Respectfully submitted,
